### EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with William Silverio on January 31, 2006.

The application has been amended as follows:

1. In claim 1, after line ~~16~~<sup>13</sup> insert "wherein the request to determine a payment network is transmitted to an inter-network directory provider."
2. Cancel claim 5.
3. In claim 27, after line ~~16~~<sup>13</sup> insert "an inter-network directory station configured to receive the transmitted request to determine the payment network with which the payee is associated."
4. Cancel claim 31.

### REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

Examiner notes that with respect to Thomas the decision by the Board of Patent Appeals and Interferences stands as Examiner's reasons how the references fails to teach the present invention. Specifically, Examiner points to page 6, lines 6-13 of the decision and notes that the board interpreted the steps of:

Art Unit: 3627

“transmitting a request of the first service provider to determine a payment network within the multiple payment networks with which the payee is associated;”

and

“receiving information indicating that the payee is associated with the second payment network”

as between the payer and the service provider. This bi-directional communication between the service provider and the payer is not present in Thomas.

Based on this interpretation Examiner considered Wagner (US Patent Number 5,424,938). Wegner however does not teach the claims as amended by Examiner in the Examiner’s amended submitted with this Notice of Allowance. Specifically, the claims as amended require the steps of:

“transmitting a request of the first service provider to determine a payment network within the multiple payment networks with which the payee is associated;”

and

“receiving information indicating that the payee is associated with the second payment network”

to be performed between the first service provider and an inter-network directory provider.

Since the information is provided by the inter-network directory provider, the payer need not be aware of what payment network the payee is on and therefore need not supply the information.

Examiner further notes that as Wegner requires the payer to provide the payment network the payee is associated with, there would be no motivation to modify the reference to include an inter-network directory provider.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

Art Unit: 3627

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
